

Bharath Dasari

Sr Data Science Consultant

📍 Hyderabad, India ✉️ aba21bharath@iima.ac.in 📞 +91 9959899430 🌐 /in/barathdasari 🔄 /barathdasari

👤 Profile

Analytics professional with a **PG Diploma in Advanced Business Analytics from IIM Ahmedabad** and 8+ years of experience across **Telecom, Retail, Banking, Insurance, and Healthcare**. Expertise in **A/B testing, experimentation, and statistical analysis** to drive customer engagement and business optimization. Skilled in SQL, Python, machine learning, and data visualization, with hands-on experience in forecasting, process automation, and ETL pipelines. Proven track record in data migration, system integration, and database management, streamlining operations for P2P and F2S teams. Adept at collaborating with product owners and cross-functional teams to deliver data-driven insights and mentor teams in Python, statistics, and experimentation methodologies.

🎓 Education

Post Graduate Diploma in Advanced Business Analytics 2021 – 2022
Indian Institute of Management  Ahmedabad

Bachelor of Technology in Electronics & Communication Engineering 2012 – 2016
G. Pulla Reddy Engineering College Kurnool

🧰 Work Experience

Sr Data Science Consultant 10/2024 – present
Verizon Hyderabad

- **Led the design and execution of 50+ A/B tests** for Verizon's **VCG Assisted Channels**, optimizing **conversion rates, transaction time, and engagement metrics**, resulting in a **12% uplift in customer conversions**.
- **Developed data-driven insights** using Adobe Analytics, Looker, SQL, and Python, creating real-time dashboards and automated reports that improved decision-making efficiency by **30%**.
- **Collaborated with product owners and cross-functional teams** to define experimentation strategies, ensuring the **statistical significance of test results** and enabling data-backed business decisions.
- **Enhanced A/B testing methodologies** by integrating **advanced statistical models**, improving the accuracy of impact measurement and leading to more effective optimization strategies.
- **Worked closely with the development team** to implement **PEGA vs. PzAI recommendation models** on the B360 Gridwall, ensuring seamless tracking and analysis in Adobe Analytics Workspace.

Senior Data Engineering Analyst 2021 – 2024
Accenture | L'Oréal Hyderabad, India

- **Led 10+ technical workshops** with business stakeholders, translating requirements into **data-driven insights**, improving the development team's efficiency by **30%** in implementing A/B testing frameworks and statistical models.
- **Collaborated with onshore development teams and clients** to resolve **critical data engineering bottlenecks**, reducing data processing time by **40%** and ensuring the seamless execution of **experimentation pipelines**.
- **Developed and optimized ETL pipelines for migrating 500+ GB of data** from **legacy systems to HANA**, improving data processing speed by **50%** while ensuring **99.9% data accuracy**.
- **Implemented and optimized SQL queries**, reducing query execution time by **60%**, enabling **faster retrieval and advanced statistical analysis** for business insights.
- **Built 100+ data transformation workflows** using **Informatica Power Center**, enhancing **data processing efficiency by 35%**, supporting large-scale **A/B testing and experimentation**.

Data Analyst

Tata Consultancy Services | USAA | Bank of America

2017 – 2021
Hyderabad, India

- Involved in **Business Users Meetings** to understand the client's requirements and **prepare functional documents** for the development work.
- Worked with several facets of the **Informatic PowerCenter** tool - Source Analyzer, Data Warehousing Designer, Mapping & Mapplet Designer, and Transformation Designer. Development of Informatica mappings for better performance.
- Responsible for Performance Tuning** at the Mapping level, Session level, Source level, and the target level for Slowly Changing Dimensions Type 1, Type 2 for data loads.
- Involved in the Performance Tuning of Database and Informatica. **Improved performance** of the processes by identifying and rectifying performance bottlenecks.

Skills

Statistics

Hypothesis Testing, Bayesian statistics, Descriptive Statistics

Tools

Adobe Analytics, Looker, Python, R Programming, SQL, NoSQL, MS Excel, Informatica Power Center

Machine Learning

Linear & Multiple Regression, Clustering & Classification algorithms, Association algorithms, Neural Network Algorithms, Text, Sentiment Analysis

Visualization

Tableau, Power BI, matplotlib, Plotly, Seaborn

Certificates

Google

*Data Analytics
Professional Certificate*

Great Learning

R Programming
